Linkedin: [linkedin.com/in/neight1000/](https://www.linkedin.com/in/neight1000/)

Summary

Senior Product Designer with 30+ years designing and launching net new products, platforms, and design systems at Microsoft, Xbox, Google, Amazon, EA Sports, Whatnot, and REI. Designed products used by hundreds of millions of people across web, mobile, TV, cloud, and AAA gaming. Expertise in product strategy, UX, visual design, interaction, design systems, prototyping, and AI assisted design workflows.

Selected Achievements

- **30+ Years of Product Innovation:** Designed and launched net new products, platforms, and design systems at Microsoft, Google, Amazon, Xbox, EA Sports, Whatnot, and REI, reaching hundreds of millions of users.
- **Platform Builder:** Designed REI's first e-commerce platform, helped shape Amazon.com's early shopping experience with the original global navigation system and Buy Now button, and contributed to the launch of Xbox One, Amazon Luna, EA Sports FC Clubs Open World, and Whatnot's unified design system.
- **Xbox One Innovation:** Helped define the Xbox One visual language, interaction framework, and motion system. Named inventor on the patented Achievement Hunter interface, enabling real time tracking and display of player achievements during gameplay.

Work Experience

Whatnot

Staff Product Designer / Consultant

Jan 2026 - June 2026 (6-month Contract)

- **Unified Design System:** Merged web and mobile Figma libraries into a cross platform design system with a three tier token architecture. Used AI to audit and simplify design tokens, preparing the system for component migration.
- **Design System Governance:** Partnered with engineering and UX writing to centralize documentation in Supernova, establish component governance, and automate design feedback across Slack, Jira, and Figma. Reduced QA effort by approximately 30 percent and improved design to development handoffs.
- **AI Prototyping Infrastructure:** Partnered with engineering to build a GitHub prototype repository, enabling designers to create high fidelity interactive prototypes using Claude, Cursor, and Figma AI.

Electronic Arts / EA Sports - FC Premium

Senior Experience Designer

Jan 2023 - January 2026 (3 Years)

- **Clubs Open World:** Led product design for a new open world game mode spanning FC24, FC25, and FC26 Premium. Guided the product from concept and funding approval through production for more than 150 million registered players.
- **Complex Systems Design:** Designed the player experience for World Map, Objectives, and Interactive World Objects, simplifying progression systems and player data into intuitive gameplay.
- **AI Prototyping:** Used Claude to prototype and validate player matchmaking concepts, translating game mechanics into intuitive player experiences.
- **Executive Communication:** Secured multi year executive investment by presenting product vision, feature strategy, and interactive prototypes to leadership, game design, engineering, and user research.

Amazon / Luna

Senior Product Designer

Oct 2021 – Dec 2022 (1 yr 2 mos)

- Multi Platform Design System: Led design and delivery of the Amazon Luna Design System, establishing UI components, interaction patterns, and design standards across Fire TV, Android, iOS, Mobile Web, and desktop.
- Mobile Conversion Growth: Led design for the Luna mobile app from concept through General Availability, increasing mobile conversion 5× from 0.7% to 3.5% through onboarding redesign and UX optimization.
- Cross Platform Experience: Increased cross device engagement by 45% by designing a consistent experience across Fire TV, Android, iOS, Mobile Web, and desktop.

Google Cloud / Android

Senior UX Designer

2015 – 2021 (6 years)

- Google Stickers Platform: Led design of the Google Stickers platform, creating a unified API and user experience across Android and iOS messaging apps.
- Marketplace Search: Led the redesign of Google Cloud Marketplace search, increasing platform usage by 7.2% through information architecture, search optimization, and product discovery.
- Enterprise Platform Design: Partnered with engineering and product management to design Google Cloud Platform experiences, simplifying multi tenant cloud workflows.
- Design Leadership: Scaled design systems and workflows across enterprise and consumer teams, mentoring designers and establishing shared UX frameworks.

Microsoft / Xbox

Senior Visual Designer

2012 – 2015 (3 years)

- Xbox One Launch: Led a cross functional team of visual, interaction, and motion designers, defining the visual language, interaction framework, and motion system for Xbox One.
- Achievement Hunter Patent: Named inventor on a U.S. design patent for the Xbox One Achievement Hunter interface, enabling real time tracking and display of player achievements during gameplay.
- Platform Experiences: Led visual and interaction design for Xbox Games for Windows, Windows 10, and HoloLens concepts, extending the Xbox experience across console, PC, mobile, and emerging platforms.

Frog Design

Senior Visual Designer

2010 – 2012 (2 years)

- Brand & Design Systems: Developed brand strategies, interactive guidelines, and visual design systems for Microsoft, Xbox, Hewlett Packard, Cummins, and Computer Associates.
- Digital Platforms: Designed interactive guidelines and asset systems for Xbox 360 Marketplace, HP Mobile Music, and Cummins' global digital platform.

Razorfish/Sapient

Senior Art Director

2005 – 2010 (5 years)

- Creative Direction: Led multidisciplinary teams delivering advertising campaigns, digital experiences, websites, and interactive products for Microsoft, AT&T, Best Buy, Hawaiian Airlines, Dockers, and Coors.
- Integrated Campaigns: Directed digital, web, print, and experiential campaigns from concept through production, collaborating with creative directors, copywriters, strategists, producers, and clients.

Cole & Weber

Art Director

2001 – 2005 (4 years)

- Brand Strategy: Developed advertising campaigns, brand identities, and marketing materials for Rainier Beer, Microsoft, and Tree Top.
- Integrated Campaigns: Delivered campaign identities, print collateral, and early web experiences with multidisciplinary creative teams.

Amazon.com

Interaction / Web Designer

1998 – 2000 (2 years)

- Amazon Shopping Experience: Designed Amazon.com's global navigation system and the first Buy Now button, helping define the early online shopping experience.
- Amazon Music: Designed promotional experiences and digital campaigns supporting Amazon's music business.

REI

Interaction / Web Designer

1996 – 1998 (2 years)

- First E-Commerce Platform: Designed REI's first e-commerce website and launched REI Outlet, defining the information architecture, navigation, and online shopping experience.
- Experience Design: Led creative direction, art direction, and navigation design, collaborating with photographers and engineers to translate concepts into production ready web experiences.

Education

Perry Technical Institute / Yakima Valley Community College

AA, Graphic Design & Illustration

Apprenticeship

Lewis Design Group | Design Intern

Print production, marketing materials, typography, and brand identity.

Design & Strategy

- Information Architecture | Udemy
- Psychology of Games | Udemy
- Creative Leadership Toolkit | John Maeda | Skillshare

Emerging Technology
